Thirty-nine and counting?

Can't see your front sight clearly anymore?

Tired of using vision as an excuse for bad day?

Bring you most recent glasses or prescription to the V.I.C.C. and investigate a separate prescription made for shooting. Get that old frame from a previous prescription out of the drawer so that it can be "recycled" into a useful set of shooting glasses.

Dr. Stephen Taylor will volunteer his time to put on a workshop for those interested. There is no obligation and prescriptions will be issued that can be filled anywhere.
